

Protect Your Turf with Continuous Innovation!

//// NEXTGEN TURF[™]
series
Turf-Friendly Rubber Tracks

NextGen TURF rubber tracks are also available in a special **non-marking** Orange rubber compound.

Turf Protection

NextGen TURF Series rubber tracks for track loaders are perfect for applications on golf courses, parks, and any landscaping work that would benefit from turf protection.

Reduced Ground Pressure

McLaren Industries has engineered the NextGen TURF series specifically for landscaping professionals who need a smooth tread and reduced ground pressure.

Lighter Footprint

NextGen TURF tracks leave a much lighter footprint than conventional tracks and reduce damage on delicate turf areas and various irrigation systems deployed underneath.
